ALK-Abelló, Inc. Notice of Direct Distribution for 340B Purchases of Select Covered Outpatient Drugs

Dear Valued Customer,

On July 1, 2026, ALK-Abelló, Inc (“ALK”) will launch a direct distribution process for 340B covered entities and associated contract pharmacies. ALK has elected to offer select 340B covered outpatient drug products listed below at the 340B Ceiling Price to qualifying 340B Covered Entities and their contract pharmacy agents exclusively through ALK’s third-party logistics provider Direct Customer Solutions, LLC (“DCS”). The purpose of this communication is to ensure our wholesaler partners are aware of how we will be handling distribution of these select products specifically related to the 340B program.

Importantly, ALK requires that our wholesaler partners not load any pricing into the 340B pricing files for their 340B accounts. This includes loading of any Wholesaler Acquisition Cost (“WAC”) or Group Purchase Price (GPO) or other price for the select products listed below beginning on July 1, 2026. We ask that you provide written confirmation of compliance with this instruction by June 15, 2026, to Jeff Parnell at jeffrey.parnell@alk.net.

To provide an efficient transition to the 340B direct distribution model, ALK will continue to process wholesaler partner chargebacks for 340B transactions submitted prior to August 1, 2026, provided that these chargebacks must have an initial invoice date prior to July 1, 2026. After August 1, 2026, no additional 340B chargebacks will be processed by ALK as all 340B sales will be supplied to 340B covered entities and their contract pharmacies directly by ALK starting July 1, 2026.

As reference, the specific ALK products that will be available for direct purchase at the 340B Ceiling Price through DCS as of July 1, 2026, are as follows:

52709-1501-03	GRASSTEK US TRADE 30/CT
52709-1601-03	RAGWITEK US TRADE 30/CT

Thank you in advance for your services and support of ALK's 340B program compliance.

Sincerely,

DocuSigned by:
