

Notice Regarding LEO Pharma Inc.'s 340B Contract Pharmacy Policy

Dear Covered Entity,

I am writing to inform you that, starting June 22, 2026, LEO Pharma Inc. ("LEO") is altering its approach to distributing products purchased at the 340B price. Effective June 22, 2026, LEO is implementing a policy restricting shipment of products listed on Addendum B to contract pharmacies when ordered by covered entities at the 340B discount. Under the new policy, LEO will no longer facilitate shipment of orders on behalf of hospital covered entities to contract pharmacies, other than under the exceptions listed below:

- LEO will permit hospital covered entities under Section 340B of the Public Health Service Act (a)(4) (L), (M), (N), and (O) to designate a single contract pharmacy location if the covered entity lacks the ability to dispense outpatient drugs to eligible patients at the 340B price through an in-house pharmacy, provided the designated contract pharmacy is part of LEO's Limited Distribution Network for specialty products.
- Where contract pharmacy shipment is authorized, LEO will require the submission of claims data on 340B utilization filled at an authorized contract pharmacy for hospital covered entities covered by this policy. Specified claims data must be submitted on the 340B ESP™ platform within 45 days of dispensing.
- LEO, at its sole discretion, is exempting federal grantees under Section 340B of the Public Health Service Act (i.e. covered entities other than the hospital entities listed above) from its 340B Contract Pharmacy Policy. At this time, these covered entities may continue to access products at the 340B price through an unlimited number of contract pharmacies.
- At this time, LEO's Contract Pharmacy Policy does not apply as specifically described to covered entities in states referenced in Addendum A.
- LEO reserves the right to modify or alter this policy at any time in its sole discretion.

LEO is utilizing the 340B ESP™ platform to support contract pharmacy designations. 340B covered entities that haven't already registered an account with 340B ESP™ can make their designations by visiting www.340besp.com/designations. Users that have registered an account with 340B ESP™ can designate a contract pharmacy by navigating to the Entity Profile tab. If you have questions regarding the change in our 340B distribution model, please contact us at support@340Besp.com.

In support of a smooth transition to our new distribution model, 340B covered entities should work with their contract pharmacy administrators and wholesalers to process any outstanding Bill To / Ship To replenishment orders in advance of the June 22, 2026 effective date. Except as provided under this policy, our wholesalers will no longer support distribution of 340B purchased drugs to 340B contract pharmacies after June 22, 2026.

Sincerely,

Jessica Shah

Frequently Asked Questions

Q: Which products are subject to LEO's policy?

A: LEO's contract pharmacy policy applies to NDCs included in Addendum B. LEO will notify covered entities when additional products are added and of other changes to the product list.

Q: My covered entity has a contract pharmacy relationship with a pharmacy that is owned by our health system. Is this pharmacy subject to LEO's policy?

A: The covered entity may elect to designate a contract pharmacy location registered on the Health Resources and Services Administration ("HRSA") Office of Pharmacy Affairs ("OPAIS") database, regardless of ownership interest, as its single contract pharmacy location.

Q: My covered entity has an in-house pharmacy that is capable of purchasing and dispensing LEO drugs, but my entity doesn't use it to dispense LEO drugs. Can my entity designate one contract pharmacy instead?

A: No, under LEO's policy, only covered entities without an in-house pharmacy may select a contract pharmacy to designate, provided such contract pharmacy is part of the LEO limited distribution network. Covered entities will retain eligibility to purchase product(s) at the 340B ceiling price when shipped to an in-house pharmacy whose address is registered on the 340B covered entity database as a parent or child site.

Q. My 340B covered entity has contract pharmacy arrangements with multiple locations of the same pharmacy (e.g., six different Accredo pharmacy locations). Can my entity designate all locations of the same pharmacy?

A. No. LEO's policy allows qualifying 340B covered entities (i.e., covered entities without an in-house pharmacy) to designate a single contract pharmacy location. Contract pharmacy locations are registered individually on the HRSA database and 340B covered entities are permitted to designate only a single contract pharmacy location which corresponds to a single contract pharmacy registration with HRSA. The only exceptions to the above include Federal grantees.

Q. How often can my covered entity change its contract pharmacy designation?

A. Covered entities may change their contract pharmacy designation once every twelve (12) months (from the date of first designation) or more often if the designated contract pharmacy relationship is terminated from the HRSA OPAIS database.

Q. How does my covered entity change its contract pharmacy designation?

A. 340B covered entities can elect a single contract pharmacy every twelve (12) months. Changes to the single contract pharmacy can only be made by visiting www.340Besp.com/designations. Users that have registered an account with 340B ESP™ can navigate to the Entity Profile tab to make their contract pharmacy designation.

Q. Is LEO requiring covered entities to have a HIN registered for the contract pharmacy that they designate?

A. Yes, a contract pharmacy must have a HIN assigned to it in order for a covered entity to designate it as its single contract pharmacy. This information is important for LEO to manage its process with its wholesalers.

Q. If the contract pharmacy my covered entity wants to designate doesn't have a HIN, how does my entity get one?

A: LEO will not register a HIN on your behalf, however if you need guidance or more information on how to get a HIN assigned to your contract pharmacy, please reach out to support@340besp.com. If you try to designate a contract pharmacy without a HIN in 340B ESP™, the system will notify you of this requirement and provide instructions for how to obtain a HIN.

Q. How does my covered entity ensure that its eligible contract pharmacy locations take effect on June 22, 2026?

A. For a covered entity's eligible contract pharmacy locations to take effect on June 22, 2026, the entity must designate its contract pharmacy by June 14, 2026. After June 14, 2026, please allow ten (10) business days for the eligible contract pharmacy locations to take effect.

Q. How long does it take for my covered entity's eligible contract pharmacy locations to take effect after June 14, 2026?

A. Covered entities can take action to comply with LEO's policy after it goes into effect on June 22, 2026. After June 22, 2026, please allow ten (10) business days for the eligible contract pharmacy locations to take effect.

Q. How do I submit 340B claims data originating from my single contract pharmacy location designation?

A. 340B covered entities can submit claims under LEO's policy by registering an account at www.340Besp.com. Users that have registered an account with 340B ESP™ can begin submitting 340B claims for LEO by navigating to the Claims Data Submission tab. 340B claims must be submitted within forty-five (45) days of the date of dispense for the contract pharmacy to remain eligible to receive 340B purchased drugs.

Q: What happens if my organization does not provide 340B claims by the required date?

A: Failure to provide claims data under LEO's policy may result in the designated contract pharmacy losing eligibility to receive products at the 340B price. If you encounter challenges in submitting conforming claims data, please reach out to 340B ESP™ with any questions. Please also ensure that your covered entity's contract pharmacy administrator is aware of these policy requirements and takes any appropriate steps to assist with claims data submission. Specified claims data must be submitted within forty-five (45) days of the date of dispense to the covered entity's patient.

ADDENDUM A

<p>At this time, LEO's Contract Pharmacy Policy does not apply to covered entities in the following states, allowing them full access to the contract pharmacy network within the respective state:</p>	<p>At this time, covered entities will have full access to their contract pharmacy network within the relevant state, so long as the covered entity submits claims data on 340B utilization filled at an in-state ship-to contract pharmacy location:</p>
